12-13/11/2016: Introduction into General Education

14-18/11/2016: Biology Immersion

General Education

Children are raised by role models to connect to present knowledge.

In order to use this information, basic knowledge & skills are needed, namely

- music, singing, dancing, painting ~ soul food
- mathematics, physics, chemistry, biology, languages ~ mind food

Immersion is a scientifically proven holistic method in which subjects are delivered in a non-fragmented way.

Holistic education forms critical individuals who fearlessly take responsibility in society!

Anna Pavlova

Passionate about how to apply new laws in times of changed energy fields

Former teacher at the Tekos Shetinin School

Seminars

12-13/11/2016 Introduction €240,-

14-18/11/2016 Biology Immersion €600,-
